

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Authorization to Contract with Ham Lane Clinic, 1235 North Vine Street, Lodi for Hepatitis B Shots for City Employees

MEETING DATE: April 21, 1993

PREPARED BY: City Manager

RECOMMENDED ACTION: That the City Council authorize Hepatitis B shots for approximately 70 employees through the Ham Lane Clinic, 1235 W. Vine Street, Lodi.

BACKGROUND INFORMATION: The Cal/OSHA Bloodborne Pathogen Standard (8CCR 5193) covers all employees who could be reasonably anticipated as the result of performing their job duties to have exposure to blood or other potentially infectious materials. The purpose of the standard is to limit occupational exposure to blood and other potentially infectious materials since any exposure could result in transmission of bloodborne pathogens which could lead to disease or death. The standard includes educating and training employees on routes of exposure, providing employees with personal protective equipment such as gloves), and providing employees with the opportunity to be vaccinated against Hepatitis B.

City employees who are considered at risk due to their work duties have attended an hour and a half training session by the American Red Cross on Bloodborne Pathogens. The employees covered are those from the Electric Utility Department, Parks Division, and the Public Works Department. These are employees who are either required to be CPR trained for the job, work in the parks and pick up hyperdermic needles, or work in or near raw sewage.

Employees were then given the opportunity to waive the Hepatitis B shot series by signing a waiver or to sign up for the series. Approximately 70 employees have signed up for the vaccination. The Police and Fire Departments already have the shot series as part of their safety program and were therefore not included in the survey.

Page Two

Staff spoke with representatives from six medical facilities to obtain costs for the Hepatitis B shot series and the post-series screening test. Based on the pricing, availability record keeping capabilities, and on-site delivery, staff recommend that the City contract with the Ham Lane Clinic for Hepatitis B shots for an estimated 70 City employees. Once the shots have been administered, the employees will not need to be vaccinated for possibly five years and at that time a booster shot may be all that will be required to maintain the immunization. The cost to the City will be approximately \$9,450 for the three-part shot series and \$1,260 for the post-series screening tests to ensure that the employees are immune to the Hepatitis B disease. The total cost will be approximately \$10,710.

CC-50(a) The City Council adopted Resolution No. 93-49 approving the
CC-90 purchase of two mid-size paratransit buses for Dial-A-Ride
CC-300 from California Bus Sales of Fresno, California, the low
 bidder, in the amount of \$80,315.

system is implemented. Specifications were approved by the
City Council on March 3, 1993. Bids were opened in April
8, 1993, and eight bids were received from four bidders.
Below is a list of the bids received.
